

## **THE ORIGINAL PREMIUM CZECH LAGER**

### **Budejovicky Budvar**

5% ABV

Pilsen in Bohemia may be the home of the Pilsener style but the beers of nearby Budweis were traditionally held in such high esteem that the brewery of the Bohemian royal court was located here. Bohemia has outstanding hops and unrivalled malting barley thanks to its unique climate. Budvar is one of Bohemia's great names, a great amongst beers.

Budvar is a big lager. For a start it contains 5% alcohol which gives body and drives the flavour which is round and full, toasty, malty, almost fruity as lagers go. However, all of this opulence is perfectly counterbalanced by a certain bitterness on the clean finish which comes through from the local hops.
