FOOD & WINE MAGAZINE

91 **Coollest alcohol-free Beer**

Just because you don't want alcohol doesn't mean you don't want to have depth of flavour, or indeed the thirst quenching coolness of a beer.

Luckily the German

Brewers of Erdinger Weissbeir have come up with the answer. Obviously we think this non-alcohol beer is great for times when you need to avoid alcohol but it also packs such a punch of flavour you should be ordering it for the taste alone RGB.
